DANS LA TENTE - Information

Dans La Tente makes music for drunken hearts which is not a freak-show for pint-loving teenagers. Their shows happen in off-locations more then they are vented in hipster-clubs of that city. Guitar-shouldered Dans La Tente is not looking for enlightening - it's their search for lust-growing. May short days become the long nights of the ones nurtured in the shadows.

Knights – Information

The band's debut refers to popular rock-music from the past three decades: Is it the 80ies of the Thatcher-era with punk and new-wave or the 90ies with grunge and it's uprising of anger or the even the 'quiet is the new loud' anti-folk movement of the past years.
